

# Mid-Atlantic JMP Users Group (MAJUG) Meeting

When: Wednesday, January 26, 2011

Where: MedImmune, LLC.

Conference Room: Multipurpose South  
One MedImmune Way  
Gaithersburg, MD 20878  
(301) 398-0000

Theme: Using DOE to solve practical problem

Registration: 8:30-9:00 am

Conference: 9:00 am-12:30 pm

9:00am Welcome the attendees and introduce MedImmune

## Presentations & Speakers:

**“A probabilistic model for risk assessment of residual host cell DNA in biological products”**

Duration: 40 minutes

Speaker: Harry Yang, Ph.D.  
Senior Director, Biostatistics  
MedImmune, LLC  
One MedImmune Way, Gaithersburg, MD 20878  
Phone: 301-398-4405 (o)  
Email: yangh@medimmune.com

**“One of following three topics:**

- o extracting and visualizing UNICORN data (3D plot of RT vs UV vs a variable)**
- o principle component analysis for a bioreactor**
- o programming w/ JSL- aggregate data, create control charts from master list”**

Speaker: Matt Stone, Ph.D.  
Human Genome Science, inc.

**“Performance Evaluation of Chemical-Biological Detection Systems Using JMP’s Design of Experiment Platform”**

Speaker: Dr. Manny Uy

Applied Physics Laboratory  
Johns Hopkins University, Laurel, MD20723

**11:30am - 12pm** Panel session.

**Directions:**
